

EPX vPost

Secure, Cost-Effective Payment Processing

EPX is revolutionizing the payments industry by providing fully integrated payment solutions enabling merchants to efficiently process credit card, debit card, stored value, and ACH payments on one reliable platform. Just a few of the business benefits include:

- enhanced data security
- increased processing speeds
- centralized and customized transaction reporting
- dedicated client services
- decreased risk exposure
- lower costs
- strengthened process reliability
- reduced potential points of failure

EPX's Mission

EPX is dedicated to providing merchants with the most secure and cost-effective payment processing services. We will continue to research, build, implement, and support industry-leading payment processing solutions that facilitate PCI compliance, protect merchants, and enhance consumer confidence.

High-Volume Point-of-Sale Processing

EPX vPost is a robust, browser-based terminal hosted by EPX that handles keyed and swiped transaction authorization.

Emulating the basic functionality of a POS terminal, EPX vPost is capable of handling the transactions of high-volume merchants, including:

- **point-of-sale swipe**
- **PIN debit**
- **mail order / telephone order**
- **Ecommerce**

EPX vPost provides **real-time credit and debit card authorizations**, including **AVS** and **CVV checks**, and enables merchants to customize the look and feel of their individual implementations.

Technical Details

Integration

- Some integration required
- Integration time varies for each merchant, but can be as low as a few days
- EPX Certification required

Flexibility

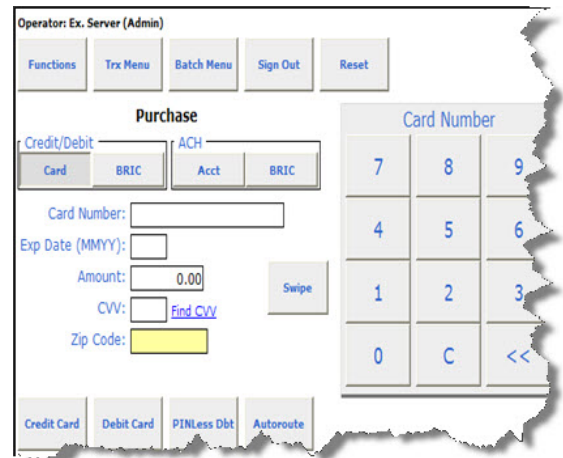

- Ability to customize the look and feel of the system
- Handles most common credit card and PIN debit sale transactions
- Allows flexibility in passing additional data elements with the transaction

Security

- Four-part key and MAC to log on for each transaction
- Unique Account # / Password per user (optional)
- Automatic, timed log off
- 128-Bit SSL

Technical Requirements

- Internet connection
- Card Swipe / Card Reader (optional for CP transactions)
- PIN Pad (optional for PIN Debit transactions)

EPX is a member of the Payment Card Industry Security Standards Council. EPX is PCI v1.2 compliant, VISA USA CISP compliant, and MasterCard SDP compliant.
